Engineering Manager
EM vs Tech Lead vs IC
What is Engineering Management?
People
Product
Process
Key Focus Areas
Technical Leadership
Quality and Process
System Monitoring & Performance
CI/CD Implementation
Development / Release Workflow
Testing Strategies
Technical Standards Setting
Security Best Practices
Incident Management
Technical Strategy
Technical Roadmapping
Architectural Decision-Making
Build vs Buy Evaluation
Technical Risk Assessment
Scaling Infrastructure
Legacy System Retirement
Foundational Knowledge
Software Engineering Background
System Design and Architecture
Technical Debt and Management
Code Review Best Practices
Technical Documentation
People Management
Team Development
Hiring and Recruitment
Team Structure and Design
Performance Evaluations
Career Development Planning
Mentoring and Coaching
Leadership Skills
Delegation
Conflict Resolution
Feedback Delivery
Team Motivation
Trust / Influence Building
Emotional Intelligence
Communication
One-on-One Meetings
Team Meetings
Status Reporting
Stakeholder Management
Cross-functional Collaboration
Execution
Agile methodologies
Project Tracking
Milestone Management
Scope Management
Timeline Estimation
Project Planning
Resource Allocation
Sprint Planning
Release Management
Risk Management
Dependency management
Project Management
Strategic Thinking
Product strategy alignment
Business Case Development
ROI analysis
Market awareness
Competitive Analysis
Competitive Analysis

Quality Metrics
Team Health Metrics
Project Postmortems
Business Acumen
Budget Planning
Resource forecasting
Cost Optimization
Vendor Management
Financial Management
Company Culture
Change management
Organization structure
Politics navigation
Cross-department collaboration
Organizational Awareness
Culture Building
Team Culture
Defining and Enforcing Values
Inclusive environment creation
Team Traditions and Rituals
Recognition programs
Social connections
Bias Recognition / Mitigation
Engineering Culture
Innovation fostering
Learning culture development
Knowledge sharing practices
Technical excellence mindset
Blameless Post-mortems
Crisis Management
Team Support
Contingency planning
Disaster recovery
Business continuity
Security incident handling
Production issues management
Risk Mitigation
Contingency planning
Disaster recovery
Business continuity
Security incident handling
Production issues management
Incident Response
Emergency protocols
War Room Management
Stakeholder Communication
Service Recovery
Post-incident analysis
Stakeholder Management
Partner Management
Vendor relationships
Technology partnerships
Integration management
API strategy
External collaboration
Customer Relations
Customer feedback integration
Technical customer support
Customer success alignment
Feature prioritization
Technical partnerships
Documentation
Architecture documentation
Process documentation
Decision records
Best Practices
Lessons Learned
Knowledge Management
